Want to Get into the Under 65 Health Insurance Market?

There has never been a better time to be in the health insurance business. **No, not selling ACA plans**. Those things are toxic – high premiums, limited coverage, little or no commissions.

But, go to where the market is this year...selling **Obamacare Alternatives**. These products are great – 30-50% lower premiums, good coverage and benefits and good commissions. That's right, there are several ways to help people choking on the high cost of health insurance. These plans give the customer what they want and need....plus, keeps them out of the IRS penalty box.

We want you to participate in this great opportunity and provide you 3 options how you can get involved:

- 1. We can pay you a \$35 individual or a \$50 family one-time **referral fee** for any client you send in that we close. No fuss; no muss. No contracting, no learning curve. You refer, we close, you get paid. And, you can send as many as you like.
- 2. If you want to be a little more involved just **get contracted with us and we will assign you a seasoned agent** that will help you close each case. You split the monthly commissions with the closing agent. Commission splits start at 25% and move up to 50% based on the number of cases you bring in.
- 3. Jump in with both feet. **Get contracted with us.** We teach you the business and you make all of the commissions. If you follow our system faithfully, you will make a substantial income for 2018.
