

## **Agents Outreach Center Has Selected eHealth For Our ACA / ObamaCare Affiliate Partner**

Thank you for contacting the eHealthInsurance Affiliate Program!

eHealth has a very popular affiliate program through Commission Junction. We pay a flat marketing fee for all traffic driven through your web site that results in a completed health insurance application. Through our relationship with Commission Junction, we have implemented a partnership platform to manage all tracking links and banners, reporting and payments. The program will provide you with detailed reports on visitor traffic and applications submitted through your Web site.

Currently, eHealthInsurance has over 180 Carrier Relationships, with over 10,000 health insurance plans. We are licensed in all 50 states plus the District of Columbia. Our Web site allows consumers to view free health insurance quotes from leading health insurance companies in their area. With eHealthInsurance, consumers can compare plans side by side and apply for health insurance coverage online. Furthermore, our eSign technology significantly reduces the time it takes to receive a determination from the insurance carrier.

**ALL new applicants receive an email** when they apply prompting them to email me (eHealth) with their program details. **They can simply write that they are a broker looking for an ACA solution, etc.** This is the last step in the application process. This helps me (eHealth) determine engaged applicants.
